WILSON IS MAN TO SAVE NATION DECLARES BAKER

He Has Been the One Sane and Serene Spirit Which Will Redeem This Age, Says War Secretary.

REPUBLICANS ARE DIVIDED

Democrats Are Given a Clean Bill of Health in Preparedness Matter: America Will Show Appreciation of Wilson When the Election Comes, Says Secretary.

COLUMBUS, Ohio, June 1.—(U. P.) Secretary of War Baker, in what was regarded as an indication of the trend of democratic national platform, this afternoon gave the democratic party a clean bill of health in past, present and prospective legislation and policies, in his keynote speech at the Ohio state convention.

A united democracy, backed by four years of accomplishment culminating in the successful submarine negotiations and faced by a fog divided into three sections—the tariff men, the forces of "the Great Detractor," and peace at any price men—was viewed by Baker. He mentioned FOR as the chosen temporary leader of the peace men. He didn't mention any other politicians by name; and he saved his praise for the president as the center of the storm.

10,000 Longshoremen Along Pacific Coast Strike Today and More Men May go Later

SAN FRANCISCO, June 1.—The department of justice will send an arbitrator here to attempt to mediate in the Longshoremen's strike. The strike was in full blast in every Pacific coast port. Representatives of the big steamship companies held a secret meeting today, considering the strikers' demands.

PORTLAND, Ore., June 1.—Special squads of police were called out in Portland, though trouble was thought unlikely. Stevedores continued to work on the government transport docks at San Francisco, the government agreeing to pay whatever scale was agreed to after the strike. Two San Francisco companies, which Mayor Ralph heads, granted the Longshoremen's demands.

Fines Collected Will be Returned in Part by Court

TRAFFIC ORDINANCE MAY BE REVISED; ENFORCED TOO LITERALLY.

The proof of the pudding is in the eating, sayeth the old adage, and likewise the righteousness of a law is best determined by its enforcement. The city dads discovered this when they hired a man to enforce the traffic ordinance. He enforced it so literally and entirely that the council discovered that the ordinance was working for injustice rather than for the peace, health and safety of the community, and, therefore, last night decided to revise it materially and to remit certain of the fines collected for violations of its letter.

Two thirds of the arrests made by Traffic Officer Ray McCarroll have been for the parking of the cars on the wrong side of the street in the residence districts. The members of the council were unanimous last evening in declaring that the intention of the ordinance was to prevent the parking of cars on the wrong side of the street within the congested district.

Recorder Fitz Gerald declared that the enforcement of the ordinance, as secured by the traffic officer, was an outrage. The violations were technical, he said, but under the ordinance, he had no option but to levy the fines when pleas of guilty were made. City Attorney Fee also declared the ordinance was working an injustice upon car owners and suggested that some of the fines collected should be remitted.

Councilman Murphy declared that, under the ordinance as it now stands, he could be arrested almost any day.

Stephens, Jr., and Frank Cline of Umatilla each paid \$100 in the Hermiston justice court yesterday after pleading guilty to selling intoxicating liquors. This afternoon Nick Ondros of Heth paid a \$10 fine in the local justice court for having received more liquor during the month than permitted by law.

Swartzlander is Pleased Over the Court's Decision

INDIAN LAND IRRIGATED WILL BRING DOUBLE RENT, HE SAYS.

One of the most pleased men over the decision of Judge Phelps in the Indian irrigation case is Major Swartzlander, agent upon the reservation, who has long contended for the establishment of the Indian rights.

"Indian land that may be irrigated will generally bring double the rent otherwise paid," said the major. "Consequently it is for the Indian's welfare to have the irrigation rights established. It will also mean considerable development and settlement between Pendleton and Gibbon. In the neighborhood of 6000 acres of land may be watered from the river and at present only 500 or 700 acres is being irrigated.

\$25 Prize to be Offered for Best Display of Roses

OFFER IS MADE TO STIMULATE INTEREST IN LOCAL FLORAL SHOW.

The city of Pendleton will offer a \$25 capital prize for the best display of roses at the second floral show which is to be held on June 15. The offer is made in order to stimulate interest in the growing of roses, the council realizing the value of the floral show in the making of a "city beautiful."

Dr. I. U. Temple, president of the floral association, appeared before the council last evening with the request for the prize, stating that he hoped the tender of such a prize would become a precedent that future councils would observe.

He expressed confident belief that the coming flower show will be very successful, despite the lateness of the season. Three years ago, the first flower show was held here and Dr. Temple stated that it had acted as a stimulus to floriculture that there are now fully four times as many rose plants in the city as then.

Councilman Murphy objected to reference to the show as a "rose show," declaring Pendleton did not want to steal any of Portland's "thunder" and Dr. Temple gave assurance that the association held to the name "floral show."
